

## CopierTrak

### A management tool to simplify your day.

CopierTrak is a specialised platform that provides you with the ability to enter page counts, individual page rate contracts, as well as the tracking of revenue and costs. It is a complete management tool for businesses who sell printers and photocopiers on a page rate or cost per copy basis.

This product allows you to focus on your core business activities and produce greater outcomes through the effective management of a range of tasks, getting notifications when you need them, not after and impressing clients with your efficiency.

Simplify the way you work with CopierTrak.

### Features

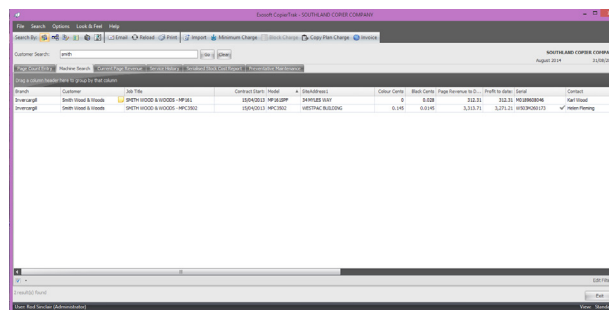

- Enter page counts or individual page rate contracts
- Track revenue and costs of jobs
- Search by serial number, client, lease agreement, and branch or page collection method
- View service history for each machine or customer
- View costs, revenue and profit for each machine, lease agreement or customer

### Benefits:

- Efficient - contractual dates management and lease agreement management which links to the scanned agreement, saving you time and energy.
- Easy reporting and review - filtering, grouping and reporting within all screens; view current month revenue by machine and review before invoicing.
- Flexible - customisable reporting for sales teams to interrogate the data.
- Scalable - can be tailored to suit the needs of any business size or industry.
- Simple billing - minimum charge billing and block charge billing available.

### Requirements

This program is a customised add-on module to the MYOB EXO Accounting system and requires the installation of MYOB EXO Business and MYOB EXO Job Costing.

### Pricing
