

# TaskTrak

## TaskTrak Client Task Module

*A simple tool to save you and your clients time and energy.*

This product fully integrates with TaskTrak Professional, providing you with an interface for your clients to access and view task information, which can be added, viewed and queried. TaskTrak Client Task Module offers you the flexibility of giving different customer types different visibility rules.

This module allows your customers to review, query, close, create and attach information to jobs, reducing the amount of time and frustration caused.

Let your clients help you, to help them.
