

TimeSheet Manager

Make tracking time a breeze with this powerful tool.

TimeSheet Manager is part of the TimeTrak suite of products. It is a fast entry system for manual timesheets that uses the same business rules as TimeTrak. Using the same database as TimeTrak, it allows a business to have staff that are processing their own timesheets electronically as well as admin staff keying the manual timesheets.

TimeSheet Manager also creates the export file for Payroll Integration, currently we support IMS Payroll, MYOB Payroll, MYOB EXO Payroll and Wage Easy.

Easily track time and costs spent on projects for better insights and improved forecasting and planning.

Features

- Manual timesheet entry and management
- Enter time and disbursements simultaneously
- Track time and costs
- Generate productivity reports

Benefits

- Efficient - track time and costs spent, providing better insights and improved planning, while providing productivity reporting and analysis.
- Easy to use - TimeSheet Manager is a simple module that is easy to use with little, to no training required.
- Flexible - enter single, multi-day or weekly timesheets.
- Scalable - can be tailored to suit the needs of any business size or industry.
- Usability - posts time, materials and narrations to MYOB EXO and your payroll system, automatically calculates overtime, preloads commonly used disbursement or stock items, and provides compulsory field entry and managers full timesheet completion.
