

# TimeTrak

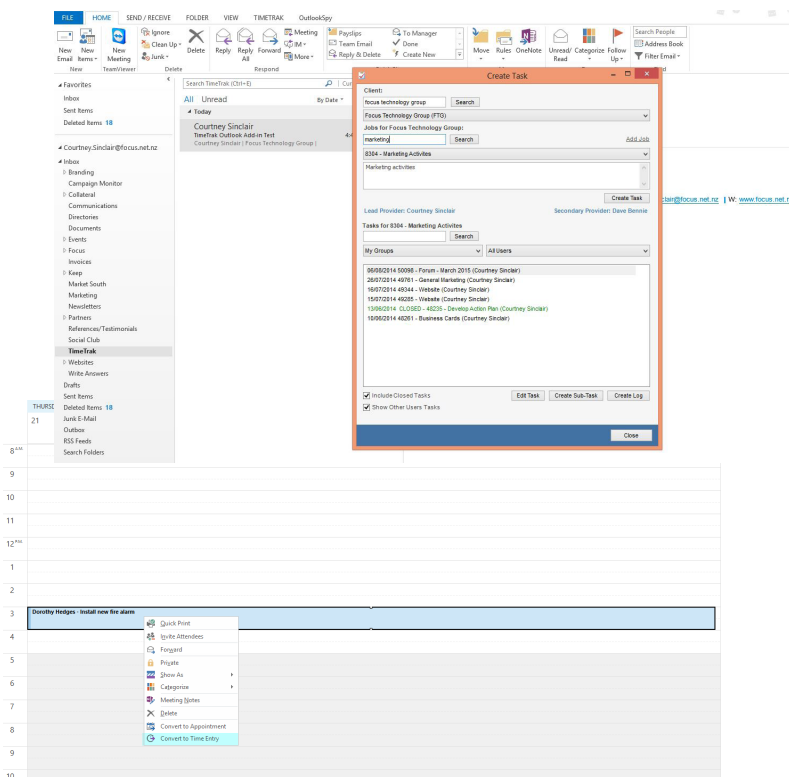

## TimeTrak Outlook Add-in

*Powerful tool which integrates with the way you work.*

Setting up the integration between Microsoft Outlook and TimeTrak Professional, the TimeTrak Outlook Add-in sends tasks and updates between the two applications and allows emails to be saved as tasks - enabling you to spend more time with the real work.

It also allows Outlook Calendar entries to be converted into TimeTrak entries, as well as allowing the TimeTrak and TaskTrak functions to be performed within Outlook.

Simplify how you work, with TimeTrak Outlook Add-in.

### Benefits:

- **Accessible** - can synchronise from TaskTrak to PDAs and Smartphones.
- **Efficient** - saves time and reduces the amount of work necessary through platform integration.
- **Easy to use** - TimeTrak Outlook Add-in is a simple module that is easy to use with little, to no training required.
- **Flexible** - can be used in any business, in any industry.
- **Microsoft Outlook Integration** - create tasks from emails, have tasks appear in your calendar or even bill Outlook Calendar entries into TimeTrak.

### Additional Modules:

- TimeTrak Professional
- TaskTrak Professional
- TimeTrak Mobile
- TaskTrak Client Task Module
- TimeTrak Customer Approval Module
- TimeSheet Manager

### Pricing:

- Included with the purchase of TaskTrak Professional
